SANTIAGO SALAZAR

FRONT-END DEVELOPER

Bogotá, Colombia | github/santiagocode | linkedin.com/in/santiagocode | (+58) 412 327 5955

I am a Front-End Developer with a proven track record in demanding web projects, proficient in JavaScript, TypeScript, React, and Next.js. I specialize in seamlessly integrating into multidisciplinary teams, conducting precise analysis, and delivering efficient solutions. Through effective project leadership, I ensure transparent communication between clients and development teams. My primary focus is on Front-End Development, where I prioritize creating user-friendly interfaces and streamlined solutions.

PROFESSIONAL EXPERIENCE

WildBranders - Spain   **Front-End Developer | Sep 2024 – Present**

Stack: React, ThreeJS, JavaScript, WebComponents, Storybook, CSS3, PostCSS, HTML5, Git, Gitlab, GSAP.

Achievements:

- Improve the performance of 3D web applications, using file compression and optimizing code to avoid redundancies
- Create libraries of web components with a primary focus on ease of maintenance, flexibility of use, and user accessibility.
- Refactor old projects to direct them to be viable monetizable products

789.MX - Mexico   **Front-End Developer | Mar 2024 – July 2025**

Stack: Laravel, React, Vue, JavaScript, SASS, CSS3, HTML5, Bootstrap, Tailwind, Git, Gitlab.

Achievements:

- Add value to new project approaches using my professional experience as a reference, achieving the desired product at the user experience level.
- Solve critical project problems regarding SEO and accessibility

Movidagrafica™ - Colombia   **From Junior to SSr Head Developer | 2021 – 2024**

Stack: Laravel, React, JavaScript, TypeScript, SASS, CSS3, HTML5, Bulma, Git, Github, Tailwind, Vitest.
